

Boys & Girls Clubs of the Emerald Coast

United Way Funded Program:
Money Matters

BOYS & GIRLS CLUBS
OF THE EMERALD COAST

Funding Amount: \$2,500
1-year grant

Description of Program Services: The Money Matters program provides behavior changing financial education to help teens get on the path towards budgeting, saving, planning for college and financial freedom.

Impact Area: Financial Stability

Significant Statistics: Boys & Girls Clubs of America notes that today's youth face record lows in savings, record highs in student and consumer debt, increased living costs, and uncertain job prospects. Yet less than one-fourth of teens know how income taxes work, and a little more than one-third know how to manage a credit card or balance a checkbook. The Money Matters Program provides behavior changing financial education to help teens get on the path toward budgeting, saving, planning for college and financial freedom.
