

Be Ready Alliance Coordinating for Emergencies (BRACE)

United Way Funded Program:
Youth Emergency Preparedness &
Crime Prevention

Funding Amount: \$4,000
1-year grant

Description of Program Services: This program creates a culture of preparedness, provides training in life sustaining skills and supports crime prevention initiatives.

Impact Area: Education

Significant Statistics: Pensacola is ranked as the 36th city in the U.S. to receive direct hits and brushes with natural disasters. BRACE will provide education, training and resources to ensure young adults are able to successfully transition from high school to work life. An understanding of how emergency preparedness impacts the ability of their employer to stay in business when our community is impacted by a major disaster will be a valuable tool that helps young people transition.
