

Escambia County Public Schools Foundation

United Way Funded Program:
Success Academy

Funding Amount: \$6,250
1-year grant

Description of Program Services: Success Academy provides middle and high school students with intense interventions to recover coursework, modify inappropriate behaviors, and provide vocational opportunities to encourage graduation/ GED achievement.

Impact Area: Education

Significant Statistics: During the 2015-2016 school year, Escambia County had a 76.1% graduation rate compared to the Florida state rate of 80.7% for the same year. The county is closing the gap between the percentages of on time graduations compared to the state, but there is still a group of students that struggle with staying on track.
