

The Arc Gateway

United Way Funded Program: Pearl Nelson Center

Funding Amount: \$75,324
3-year grant

Description of Program Services: The program provides developmental instruction and pediatric therapy services (speech, physical, occupational) for children and adolescents with developmental delays or specific disabilities.

Impact Area: Health

Significant Statistics: The Sacred Heart Health System's Early Steps Program reports that 800 children were identified as in need of developmental instruction services to reap the most benefit out of early intervention therapy. The Pearl Nelson Center provides developmental instruction and pediatric speech, physical, and occupational therapy services for children and adolescents with developmental delays or specific disabilities. Early intervention is estimated to save \$17 for every dollar invested.
